

ANDREY MAZUROV

FullStack JavaScript Developer

test@test.com

PROFILE

Fullstack developer focused on turning product ideas into responsive interfaces and maintainable server-side applications. A practical approach to clear architecture, readable code and thoughtful user experiences.

CORE TECHNOLOGIES

TypeScript / React / NestJS

ADDITIONAL TOOLS - EXAMPLE STACK

Node.js, JavaScript, HTML, CSS, PostgreSQL, REST APIs, Git and Docker. Adapt this list to reflect your actual experience.

PROJECT AREAS - ILLUSTRATIVE

Web interfaces: accessible components, responsive layouts and clear interaction states. APIs: structured application logic and predictable data exchange.
Product delivery: connecting the browser, server and database.

EXPERIENCE & EDUCATION

Add verified roles, project descriptions, dates and qualifications here. No employment history or education credentials are represented by this sample.
